Simple. Flexible. Profitable

www.myretailbuddy.com

Streamline Your Gas Station Operations:

MyRetailBuddy.com provides the tools you need to manage your business location remotely, securely, and efficiently.

Key Features:

1. Automated Fuel Monitoring & Compliance: Ensure total environmental compliance without the paperwork.

- **Real-time Alerts:** Receive immediate notifications for Low Gas, Delivery Arrivals, and Water Detection.
- **Automated Reporting:** Generates SIR reports and handles Automatic Fuel Reconciliation effortlessly.

2. Advanced Employee Time & Attendance Simplify payroll and maintain total control over your staff's hours.

- **Facial ID Verification:** Verifying identity upon clock-in/out to prevent "buddy punching."
- **Seamless Scheduling:** Manage shifts, send alerts, and generate timesheets automatically for payroll.
- **Admin Control:** Easily edit time logs for missed punches.

3. Digital Check Payment System Modernize how you pay vendors while reducing fraud risk.

- **Eliminate Risk:** No more signed blank checks or unauthorized payments.
- **Full Traceability:** Every check is tracked with attached digital invoices for easy auditing.
- **Cost Savings:** Stop ordering expensive pre-printed checks.

Upside

www.upside.com

Over 30,000 fuel retailers nationwide - from locally owned stations to major industry brands - use Upside to capture new customers and proven profit on every transaction. Upside knows which nearby customers aren't visiting your station and c-store, and uses personalized cash back offers via the Upside app to capture them for you, instead of your competition. These unique offers are based on anonymized data you already have, and your profit is guaranteed, or you don't pay.

While you focus on day-to-day operations, we identify the minimum incentive required for each customer to choose you and spend more, more often. There are no integrations or operational changes required to join Upside.

www.nationalfilterservice.com

NATIONAL FILTER SERVICE®

National Filter Service (NFS) is a national provider of scheduled HVAC air filter replacement and filter management services for multi-site commercial portfolios. For more than 30 years, NFS has supported retail, QSR, convenience store, grocery, and mixed-use facilities across the United States with consistent, documented service delivery.

NFS focuses on preventative maintenance at the HVAC system's primary control point, helping protect equipment, support indoor air quality, and reduce energy consumption and repair risk. The NFS model is built for scale, compliance, and accountability, providing property owners and managers with verified service records, predictable scheduling, and nationwide coverage through a single provider. NFS is focused on HVAC system air filter changes, no upsells, plus scaled pricing for Empire members.

Failure to replace HVAC filters on a scheduled basis increases system energy usage and significantly raises the likelihood of equipment breakdowns. National Filter Service has served members of the Empire community for many years and now as a GPM Empire Platinum member is looking forward to working with all members to reduce energy use and help prevent avoidable HVAC failures.

- Delivered to you by your trusted distributor

Little Caesars®

www.LittleCaesars.com

Empire Deal terms: Little Caesars will waive the development fee of \$5,000 per location if they are built within a specified time frame.

Headquartered in Detroit, Michigan, Little Caesars was founded in 1959 as a single, family-owned restaurant. Today, Little Caesars is the largest carry out-only pizza chain in the United States and the third largest pizza chain in the world, with stores in each of the 50 states and 24 countries and territories around the world. An exceptionally high growth company with 60 years of experience in the \$145 billion worldwide pizza industry, Little Caesars is continually looking for franchisee candidates to join our team in markets around the world. In addition to providing the opportunity for entrepreneurial independence in a franchise system, Little Caesars offers strong brand awareness with one of the most recognized and appealing characters in the country, Little Caesar. Little Caesars Express stores offer the opportunity to integrate the power of the Little Caesars brand into nontraditional locations like convenience stores and gas stations. Pizza! Pizza!

Tres Picosos burritos are the perfect convenience food: portable, wrapped, compact and flavorful! Covering all dayparts, Mexican food is popular for convenience and travel retailers. Tres Picosos burritos are handmade, hand-rolled, and hand-wrapped. With eco-friendly kraft paper packaging and street art-designed labeling, Tres Picosos burritos use authentic Mexican recipes.

Unlike ordinary burrito brands Tres Picosos never compromises its high-quality ingredients and recipes. Tres Picosos doesn't add fillers or stretchers. The brand uses its original 3-oz specially formulated hot-hold tortilla and pairs it with 5-oz of delicious fillings. This tortilla-to-filling ratio differentiates the offering, bringing your customers better food and a better value.

Tres Picosos has three flavors for breakfast - Bacon, Sausage and Western Breakfast; and five for the rest of the day - Picadillo Beef, Pork Carnitas, Chicken Fajita, Taco Beef and Chipotle Chicken.

Tres Picosos burritos rock the hot case. Merchandise them in the open-air cooler, and heat burritos per daypart to merchandise in the hot grab and go display.

Royal Cup Coffee has evolved from its humble origins in 1896 to become a major force in the beverage industry, driven by a constant commitment to innovation. The company's century-long history is defined by a passion for perfecting its craft, moving from selling coffee from a horse-drawn wagon to becoming a leading importer, roaster, and distributor. By remaining a privately held, family-owned business, Royal Cup maintains a personal touch while continually adapting to the dynamic tastes of its customers. This blend of tradition and forward-thinking is key to its success, allowing it to provide cutting-edge solutions for the food service, hospitality, office, and home markets. In 2025, Royal Cup offers a wide array of innovative beverage solutions designed to meet the diverse needs of its clients. The company provides a comprehensive portfolio of products, including its time-tested Signature coffee line, the artisan-roasted H.C. Valentine brand, and the advanced ROAR Single-Serve System. Beyond coffee and tea, their offerings extend to cold brew, liquid coffee, juice, and other beverage formats. Royal Cup further supports its customers with a full suite of services, including custom equipment solutions, nationwide distribution, and dedicated program support. These robust capabilities, including its new partnership with the U.S. Culinary Open, highlight the company's dedication to providing a complete and customizable beverage program for any business.

Grocery/Food Distribution

H.T. HACKNEY

Hackney Co. one of the largest wholesale distributors in the United States, delivering total convenience and providing one reliable source for all your store's needs.

Core-Mark®

www.core-mark.com

From its humble beginnings in 1888 as Glaser Bros., a single tobacco storefront in San Francisco, Core-Mark has grown into one of the largest distributors and marketers of consumer goods in North America. While the past century has brought incredible changes to our business and the world in which we operate, our goal is the same today as it was over 120 years ago — to provide customers with the best possible service and to help them grow their sales and profits.

Core-Mark's Vendor Consolidation Initiative (VCI), unifies the fragmented DSD delivery model into multi-week deliveries. Utilizing our tri-temp fleet and this high frequency delivery model, VCI can deliver efficiencies that reduce inventory and operational costs, while providing a truly Fresh product offering that consumers are looking for.

Candy, Snacks Gum and Ice Cream. These programs combine Core-Mark's category expertise with effective merchandising, providing customers with solutions that increase sales and profits.

www.homecityice.com

Every retailer is unique with different needs from their ice supplier. Home City Ice is here to be a partner, not just another vendor. Partnering with Home City Ice you get so much more than an ice supplier, it is a relationship tailored to your ice needs. Find out all the reasons we are the right decision for your business. Home City Ice has been family owned since 1924. We're pretty darn proud of our past. In business since 1893 and owned by the same family for nearly 100 years (1924), we're excited about the 1000's of families we have provided a livelihood for and the 100's of thousands of customers we have served over the last century. Our future looks bright, and we like to think we're just getting started.

<https://everesticeandwater.com/>

Everest Ice and Water Systems delivers next-generation ice and water vending solutions designed for today's convenience-focused retailers. Our machines provide fresh, high-quality ice and filtered water on demand. All without attendants, deliveries, or ongoing labor costs. Built with durable, industrial-grade components and simple utility requirements, Everest machines fit seamlessly into retail footprints while offering a reliable, revenue-generating service customers already need. What truly sets Everest apart is our full-service approach. From flexible machine configurations to financing options, national service support, remote monitoring, and owner education through Everest University, we don't just sell equipment; we support long-term success. With thousands of machines operating nationwide, Everest helps retailers turn unused space into a dependable profit center while delivering a better, more convenient experience for their customers.

Safety 2 : (Michigan, Indiana, Illinois, Ohio only)

S2 Safety LLC is a full service First Aid and PPE supplier based out of Southeast Michigan. S2 Safety provides on-site First Aid Cabinet services including supplies and restocking of cabinets and kits. In addition to First Aid services, S2 Safety also provides inspections on eyewash stations and AEDs to ensure regulation requirements are met at both the state and federal levels. These items are typically consumable items such as band aids, headache tablets, injury/burn relief and a variety of other items that can be used for first aid trauma. For our customers outside the Michigan market, S2 Safety can ship products to their locations as needed. S2 Safety can provide all their product offering to customers across the continental United States. In addition to First Aid products and services, S2 Safety provides customers with PPE items. These items include but are not limited to safety vests, gloves, safety glasses, spill kits and a variety of other items that provide people with protection. These items can be priced for internal use within a facility or for retail use if an end user chooses to sell these items to their customers. Please provide that information as necessary to take advantage of best pricing.

- Please reach out to Anthony Tarquinio at atarquinio@s2safety.net for any questions you may have or if you would like to place an order. We appreciate your business and look forward to being a value-added supplier to all your needs.

Sani-Grabbers Glove and Clearview dispenser system gives you an economical method to address the Germ Conscious Market and will set you apart from your competitors. Grow Fuel Sales, Increase Inside Sales, Strengthen Customer Loyalty. It all starts at the Pump. Being located at each pump makes it easy to Capture your customers attention showing them that you recognize, care and have provided a solution for their concerns about health and wellness.

1. Use full-time auditors
2. Highly experienced auditors (we provide years of experience; national services provide weeks or months)
3. Provide dedicated teams of auditors
4. Accuracy and reliability is not only our goal, but the standard of service you can expect.
5. Quality service through attention to detail, flexible scheduling, robust reporting and consistency of performance.
6. H and M Services is committed to providing unmatched, top-of-the-line inventory services.
7. As your partner, we understand that information we provide is a vital component in the measurement of your business success
8. We promise to deliver a quality performance, accurate counts and customer satisfaction above any service provider in the industry

The Inventory Services You Need – Brought By The People You Can Count On

We are one of the few inventory services in the country to be SOC 1/SSAE certified. Once a company has made the decision to enlist a third party to provide a service, you want assurances that those services will be provided timely, accurately, and securely. A SOC 1/ SSAE 18 (formerly SSAE 16 / SAS 70) audit shows our commitment to maintaining a sound control environment that protects our client's data and confidential information.

www.paysafe.com

Credit Card Processing for most all business models. Founded in 1999, Petroleum Card Services is one of the largest re-marketers of First Data's Buypass network in the U.S. PCS built our reputation in fueling payments for gas stations and convenience stores, but we can do so much more. From cutting edge trends and need-to-know basis, we make the complex world of payments simple. Benefit from next day funding on all card types, EMV upgrade assistance and chargeback protection. Ask me how I can help you with all your business needs.

Dedicated Sales Representative, Julie Chizek 775-552-3074, JulieC@PCS4Fuel.com

www.incomm.com

NO COST for the POS, Scanner, gift card blanks and displays. Visa gift cards are available and many national retailers.

Increase your sales and bottom line by offering gift cards and prepaid services to your customers.

Nice addition with NO COST and will drive incremental sales as well to the location.

<https://altaine.com/>

Have you signed up with any Third-Party Delivery (3PD) organizations like DoorDash, Uber Eats and Grubhub? Altaine's Digital Order Aggregation service allows you to simplify your in-store operations and improve sales by giving you a single in-store tablet to receive and manage all your 3PD orders.

Altaine's Digital Order Aggregation service:

- Eliminates counter clutter due to multiple 3PD tablets.
- Offers a central point for product catalogue management, setting items Out Of Stock, site hours and more.
- Includes tablet monitoring and auto re-start for maximum up time.
- Offers enhanced hardware options like sticky-label printers and external speakers for noisy environments. For retailers wanting to offer their own e-commerce, Altaine provides fully functional white-label apps and websites for Company-branded Ordering (Delivery and BOPIS, buy-online-pickup-in-store).

UniFirst:

We are one of North America's largest uniform rental and facility service companies, providing uniforms, protective clothing and custom corporate image apparel and facility service programs to businesses in diverse industries. In addition to outfitting more than 2 million workers in clean uniforms each workday and delivering to more than 300,000 customer locations, we also have a hand in keeping their businesses clean, safe, and healthy through our Facility Service programs allowing us to be a single-source solution for a variety of needs. **We do restroom sanitation, floor mats, towels and mop heads to name a few!** UniFirst has over 260 locations throughout the USA and Canada, apart from Alaska, Hawaii, Montana, North Dakota & South Dakota.

Budderfly delivers scalable energy efficiency solutions tailored for multi-location convenience store operators. Our end-to-end program includes proprietary smart metering, high-efficiency HVAC systems, LED lighting, refrigeration controls, water conservation technologies, and solar—installed at no upfront cost to ownership. With real-time monitoring at the equipment level, our technology provides granular energy insights across every store, enabling operators to reduce energy spend, standardize sustainability efforts, and drive consistent performance across the entire portfolio.

Budderfly provides c-stores with our proprietary energy-saving technologies and high-efficiency equipment, including HVAC, LED lighting, refrigeration controls, water conservation solutions, and solar panels, at no upfront cost to owners. Our innovative smart-metering devices measure energy usage at each point of consumption to provide deep insights and to help optimize and reduce energy spend.

Operational control

Our Customer Portal centralizes all your locations into one comprehensive dashboard, giving valuable insight into how equipment is performing, providing critical sustainability data, and proactively sending alerts for issue management. Plus, the portal enables convenient remote access to all your locations smart thermostats to maintain optimal energy usage on-the-go.

Ease of management

Budderfly owns and manages your utility bills, making energy savings effortless. Our patented billing system streamlines utility bills into easy-to-read monthly statements and provides transparency on your consumption, savings, and carbon footprint reduction.

For over 15 years, ecoATM has been a leader in driving the recommerce revolution by expanding access to affordable technology and recycling e-waste. Every year, billions of electronics are discarded into landfills, creating mountains of harmful waste. ecoATM is determined to make it easier for everyone to contribute to a more sustainable future, one device at a time. Through conveniently located kiosks we give consumers a simple way to dispose of their used phones and other electronics – and get paid for doing it.

For retail partners, ecoATM delivers a turn-key, no-cost solution that generates rental income, drives incremental store traffic, enhances the in-store experience, and provides measurable sustainability impact. For more information, visit www.ecoatmb2b.com

Is On-Demand Pay Right For Your Organization?

Earned Wage Access, also known as on-demand pay, represents a major shift in how employees are paid for the work they do. Instead of receiving their pay at pre-agreed, fixed intervals – normally the end of the month or the end of the week – employees accrue pay on a daily basis, in much the same way as they accrue paid leave entitlement.

Then, at any time they wish, employees can withdraw a certain amount of the pay they have accrued, giving them unprecedented flexibility and control over their personal finances.

LG Digital RMN Program

- **Unlock Higher Inside Sales with Eye-Catching Digital Signage** Get more customers from the pumps into the store.
- External facing and instore screen options (pump, window, cooler door, and many more).
- Promote products, food service, car wash and specials to customers both outside and inside the store.
- Stimulate impulse buying within store product advertising.
- Use thousands of existing national and regional product ads we have created, give us your already created ads, or have our design team create custom ads.
- We remotely update ads based on your required schedule so there is minimal time and effort required by you or your staff.
- Create an advertising revenue stream with local and national advertising (Optional and 100% configurable to your permissions).

RMN Return On Investment

- 35% Average increase in customer engagement with digital signage vs static posters
- 28% Boost in in-store sales when using targeted retail media campaigns
- 90% Of shoppers say digital screens influence purchase decisions
- 24/7 Remote content management and performance monitoring
- 100% Certified LG hardware, managed and supported by authorized professionals

Back Office Accounting

www.pdisoftware.com

- Built by operators, for operators, PDI C-store Essentials gives owners of individually operated c-stores the tools they need to stay in the know and better control daily operations. Use the mobile app to view real-time dashboards and act immediately to minimize risks and grow profits. Eliminate the guesswork with accurate tobacco scan data, item-level pricing, product counts, and daily reports.
- With over 35 years of convenience retail knowledge and the industry's leading loyalty platform, store owners who choose PDI gain technology they can rely on and a partner they can trust.

LottoShield has developed a new lottery tracking system that eliminates the manual, time-intensive process of lottery reconciliation and provides retailers with strong protection from all kinds of lottery theft. The LottoShield scanner allows cashiers to audit inventory in just seconds, without entering ticket or bin numbers manually.

LottoShield is also the only system that automatically tracks invoices and reports from the state lottery to monitor confirmed packs, activations, online lotto sales, payouts, and more. In less than a couple years

LottoShield has been adopted by hundreds of retailers across the US ranging from single-site operators to 250+ site chains.

Construction/Maintenance

EMPIRE

www.metercalibration.biz

- National rates – TX, OK, LA only

Meter calibration is a procedure in which a pump is programmed to dispense the appropriate amount of fuel per transaction. The display on the pump indicates how many gallons were dispensed, but that is not always the TRUE gallons. Calibrating each meter is the best way to correct dispensing issues and prevent more issues from arising. Many companies calibrate their meters on a quarterly, bi-annual, or annual calibration schedule.

Trust. Performance. Pride.

R.W. Mercer Co. is a third-generation family-owned construction and Service Company, with seven locations – six in Michigan and one in Indiana. The company operates in three distinct areas: petroleum construction and service, general contracting, and electrical contracting (electrical vehicle capabilities). In each area, R.W. Mercer provides a turn-key approach that includes planning, design, construction, and installation as well as service, monitoring, and maintenance. Our team of professionals take pride in their ability to deliver outstanding solutions for our customers. This company-wide attitude of Trust, Performance, and Pride produces the same level of quality and service for our all our customers

With more than 65 years in business, HS brings deep expertise and proven capabilities specifically tailored to the convenience store environment. We specialize in designing and producing high-impact display solutions for shelves, counters, endcaps, and non-traditional spaces where every inch matters. We work with leading brands already established in the convenience channel, creating in-store solutions that increase visibility, drive impulse purchases, and perform in fast-paced retail locations.

Our strength in the convenience store space comes from a clear understanding of shopper behavior, and small footprints. We design with both the brand and retailer in mind—delivering solutions that are easy to install and maintain while maximizing sales per square foot. Trusted by convenience brands and operators for generations, we combine decades of hands-on experience with innovative thinking to create in-store solutions that consistently succeed at the point of purchase.

Specialty Services

At Blue Rhino, we're known for the care we put into every propane tank. We're also synonymous with convenience – because when you need propane quick, there's probably a Rhino nearby.

But we have to answer the question everybody asks. Where did the name come from?

Back in 1994, a man named Billy Prim saw a propane tank exchange business overseas. An entrepreneur at heart, he decided to start an exchange company back home.

Billy came up with the name during an African photo safari. He saw a rhino, and thought it looked like a propane tank. He added blue because it's the color of a propane flame. The brand was born.

www.catscale.com

- **Support with site selection**

From initial site evaluation and design to installation and ongoing maintenance, Sonny's offers a seamless experience. Our nationwide network of over 500 techs ensures prompt service, minimizing downtime and maximizing operational efficiency.

Tailored Solutions for C-Store Integration:

Understanding the unique challenges of integrating car wash services with C-store operations, we provide customized solutions that align with your business objectives. Our team collaborates with you to design and implement systems that enhance customer experience and profitability.

Financial Services

Inform your gas station decisions with dependable location, market, and consumer data.

Kalibrate's Fuel Site Analysis reduces the level of risk of investing in a new or existing site, using proven artificial intelligence and machine learning techniques that forecast fuel volume and retail convenience store revenue. Every location offers unique possibilities, depending on factors such as neighborhood and competition. Kalibrate's Fuel Site Analysis clearly shows you optimum scenarios for individual sites, identifying your maximum volume potential.

Kalibrate's Fuel Site Analysis answers multiple questions like: How can you plan what to buy, build, or refurbish? How many pumps should you put in? Do you need a well-known brand? How large should the store be? What is your return? How do you convince your investors?

[800-783-7600](tel:800-783-7600)

Amcom works with convenience store partners to make their operations more efficient and profitable. We offer business applications and data analytics. There is no fee....we pay you!

- You may cancel at any time.
- You need to: keep your price book current, scan your sales at the register & do your daily books timely.
- We will pull your data & pay you!

Training Services

www.comdata.com

- **Reduced equipment costs**

Automate your payment processes and see the difference it makes. You'll have more time and feel more secure about transactions. Generating additional revenue for your company doesn't hurt, either. Simplify your point-of-sale transactions. The use of our merchant systems improve efficiency at the pump and reduce training time for employees, all while increasing traffic by offering convenient features for drivers.

www.tsmanagementservices.com

Our training seminars and support materials are unlike any other. They're designed BY C-Store owners, FOR C-Store owners and operators. Our training programs are developed and presented by experienced and successful C-Store owners/operators. The seminars, training tools and materials provide pragmatic tools that focus specifically on the problems that C-Store owners encounter daily: recruiting, retaining good employees, cash and inventory controls, effective category management, improving customer service, managing expenses, budgets and understanding and achieving increased profits. Classroom Seminars The classroom-style training seminars have proven to be so successful that over 4800 retailers in 228 different seminars have participated.

Equipment Services

- **National pricing structure**

At Cybera, we make secure, enterprise-grade network applications and services accessible to all your distributed locations – urban or rural, large or small. No matter how many sites you have, implementing our solution is fast, effortless and costs less than conventional WANs.

We handle all of the following services: new construction, petroleum equipment sales and maintenance, HVAC/refrigeration, LED lighting, POS systems, security packages and software.

- **Leader in the price sign industry**

In today's changing and competitive marketplace, price signs are one of the most powerful marketing tools for convenience store owners. With thousands of signs installed worldwide and years in the business under our belt, we are leading the industry with a variety of cutting edge sign options that will impact your bottom line. From SMD retro-fit solution, to LED and profit boards, we'll update your sign with state-of-the-art technology that's brighter, cost-effective and more resistant than ever before.

Simon Surfaces is a national concrete restoration company that specializes in Fuel Island Restoration. 100% of the metal is removed from the island (without removing the gas pump), and the islands are refurbished with a 9,000 PSI epoxy-based mortar. The islands are sealed and have anti-slip material applied. A urethane topcoat is added which is UV stable and resistant to salt. This leaves customers new islands and they are rust free in the future. Additionally, the islands utilize custom colors to ensure all branding specifications are met. Downtime is minimal and projects are completed in phases so fuel can be always sold during the project.

Simon Surfaces also specializes in concrete repair, sidewalk resurfacing and curbing work. All projects are self-manufactured and installed by Simon Surfaces employees. Restoration and repair projects are an alternative to demolition/replacement where large disruptions occur. They are a cost-effective method as opposed to costly tear out and replacements.
